Platinum Basic Water Still (STS)

LabTech

Stainless Steel Chamber and Exterior Series

Unique Design & Safety Feature
with hydraulic temperature controller and a water float switch provides automatic operation.

Protect heating element from over heat when water is low level.
Protect hot from the double walled chamber structure.

Easy to Clean for maintenance free
by moving the condenser from boiler with one step.

All Stainless Steel with Double Walled Chamber
finished with powder coated blue for two tone design color

Optional Device for Recycle system for Cooling Water

Optional Order

Cooling water recycle system composed by check valve and water circulation pump.

LWD Series Basic Water Still

- **Space Saving Compact and Practical Design**
- **Maximum 7.5 ℓ / hour**
- **Economical Energy and Water Consumption**

Coming Soon!

Our New Technology will provide you with the Patented Cooling System No Cooling Water Consumption

Model		LWD-204SF	LWD-208SF
Dimensions (W x D x H mm)		380 x 290 x 580	380 x 265 x 640
Production Capacity		3.5ℓ / hour	7.5ℓ / hour
Heater		3KW	6KW
Cooling Water		Approx. 30~50 ℓ	Approx. 60~80 ℓ
Material	Inner	Stainless Steel	
	Exterior	Stainless Steel Hair Lined	
	Heater	Stainless Steel Sheath Heater	
Controller		Hydraulic Thermostat	
Electrical Requirements		110V 60Hz or 220V, 50/60 Hz	
Switch		Main Power with Pilot Lamp and Water Float Swich	
Sealing		Silicone Gasket	
Safety		Low Water & Over Heating Protector	

※ Specifications can be changed wihtout prior notice for quality improvement.

Order Number	Descriptions	
LWD-104S	Basic Water Still	3.5 ℓ /hour
LWD-204SF	Basic Water Still /w Prefilter	3.5ℓ / hour
LWD-108S	Basic Water Still	7.5ℓ / hour
LWD-208SF	Basic Water Still /w Prefilter	7.5ℓ / hour
